Linear Algebra (MT-1004)

Homework#01

Instructor: Muhammad Ali

Question 1

Determine if the following system is consistent or not:

$$\begin{aligned} 3x + 2y - 5w &= 4 \\ x + y - 2w &= 1 \\ 5x + 3y - 8w &= 6 \end{aligned}$$

Question 2

Solve the above system of linear equations using the Sympy Python library
